Kind Attention : - Mr. Sanjay Goyal – Managing Director
Subject : - Usage / Induction of *PihBond-P-117* in Our Foundry System

Dear Sir,

We are very much pleased to inform you that, we are manufacturers of S.G. and C.I types of Castings to the tune of 100.Mt/Month.

We have been using your single shot additive product *PihBond-P-117* since 12th of August, 2018.

Now the trials are over successfully and we are glad that after the usage of *PihBond-P-117* our foundry is benefited with savings as indicated before induction of *PihBond-P-117*.

The Benefits mainly are

- Retention of sand containing valuable active ingredients in the system
- Lower waste sand generation
- Better casting finish
- Better sand control and condition
- Lower friability
- Improved production due to fast dispatches.
- Man Power and Logistics Savings due to handling of Single material.
- Lowered storage space requirements as reduced procurement
- Technical service of the Goyal Technochem Pvt Ltd team

The direct tangible Savings mainly are of

Weight Control
Rejection %
Reduced disposal of waste Sand
Savings in Shot Blasting of castings

We herewith really appreciate the product *PihBond-P-117* and the technical services of Goyal Technochem Pvt. Ltd. Nagpur.

We wish them a very good more and more business in coming future with *PihBond-P-117* looking forward for the same or better support for future supplies to all foundry concerns.

Thanking you with regards,
For Rainbow Technocast Pvt. Ltd.

Director.
